## ABOUT ME

Ambitious and motivated student with a passion for learning and a strong work ethic. Experienced in programming and web development. I seek to help create a better future for our world through computer science and engineering.

## EDUCATION

### University of Central Florida

AUG 2020 – MAY 2023

**B.S Computer Science** - 3.5 GPA

- **Organizations:** Project Downtown Orlando, HackUCF Infrastructure Team, KightHacks, Brazilian Jiu-Jitsu Club
  - **Relevant coursework:** Computer Science 1&2, Computer Logic/Organization, Security in Computing, Object Oriented Programming
- 

## SKILLS

Technical - C, Java, Flutter, JavaScript, HTML, CSS, React, Django, Wireshark, Linux, PowerShell, Splunk, Git

Soft - Attention to detail, Creativity, Communication, Time management

## PROJECTS

### Resume website

- Utilizing Flutter with Dart to design a website portfolio that displays my resume on a web page with better aesthetics.
- Used Figma to design the website and brainstorm web page structure
- Programed widgets that were used as building blocks for the web page with the Flutter methodologies

### Inventory Tracker - <https://github.com/MohammadA8/Inventory-app>

- Developed and unit-tested an application using Java that stores items within their appropriate inventory descriptions.
- Used JavaFX to create a customer-friendly User Interface that reflected the functionality of the program

### Weather Application - <https://github.com/MohammadA8/Weather-app>

- Developed, styled, and programmed an application that displays the weather of cities at the current time using HTML, CSS, and JavaScript.
  - Made calls to the OpenWeatherMap weather API to obtain weather data to the specified region
- 

## WORK EXPERIENCE

### Limbless solutions Computer Science internship

Orlando, FL

*Software Developer*

Jan 2022 - present

- Worked with a team to streamline the processes of creating prosthetics arms.
- Attended meetings and cohorts that focused on self-development, teamwork, time organization, and other necessary skills to be successful as an intern.

### University of Central Florida Computer Science department

Orlando, FL

*Teaching Assistant*

Jan 2022 - present

- led labs and group studying sessions where I helped students get a better grasp of concepts, supplementary to the professor-lead lectures
- Held office hours and answered questions regarding data structures and algorithms.

### ScribeAmerica

Orlando, FL

*Medical Scribe*

Dec 2020 - Feb 2021

- Maintained and organized medical records by entering patients' information into management software.
  - Recorded patients' medical histories, test results, took patient notes, and answered phone calls on behalf of the physician.
- 

## LEADERSHIP EXPERIENCE

### Muslim Student Association at UCF - <https://msaknights.com>

Orlando, FL

*Information Technology Director*

April 2021 – Present

- Elected on the leadership board as the Information Technology Director for the 2021 – 2022 academic year.
- Developing WordPress solutions for back-end and front-end development to establish MSA website architecture and functionality.

### Project Downtown Orlando

Orlando, FL

*Communications Director*

Nov 2020 – Present

- Handled logistics on the distribution of food, clothing, and health supplies for less fortunate individuals in Downtown Orlando.
- Planned volunteering events and led a team of volunteers to prepare food and supplies for the homeless.
